Experienced Frontend Developer with expertise in React and Vue. Passionate about delivering optimal solutions and innovative user experiences through advanced frontend development techniques.

## EXPERIENCE

### Senior Frontend Engineer

**Xogito.** | United States | Present

- At Xogito, I helped develop a platform for Lawfty Inc., improving their product efficiency by delivering faster access to information.
- Developed and maintained complex UI components using React Storybook, reusability across the application.
- Implemented TanStack Table for advanced data table solutions, optimizing data handling and display for large datasets.
- Used unit testing to ensure code quality and reliability, resulting in a robust and maintainable codebase.

  - **Technologies used**: HTML, CSS, ReactJS, NextJS, NodeJS, Graphql, Apollo, Context, Storybook

### Senior Frontend Engineer

**Dante AI Inc.** | United States | Oct 2023 - July 2024

- Developed and optimized AI chatbot interfaces with custom functionalities, utilizing Next.js and React to enhance user interactions and drive engagement on the Dante AI platform.
- Collaborated with backend teams at Dante AI to refactor the codebase and implement UI enhancements, leading to improved user experience and streamlined frontend performance.
- Developed a cutting-edge chatbot avatar with personalized image and voice integration, showcasing innovative user interaction capabilities, and won the top prize at a prestigious 3-day hackathon hosted by Dante AI.

  - **Technologies used**: HTML, CSS, ReactJS, Redux, NextJS, NodeJS

### Senior Frontend Engineer

**Ritech** | Switzerland | Dec 2022 - Sep 2023

- Collaborated with a client at Comply to optimize a module using Vue.js, focusing on enhancing the data structure for improved performance.
- Worked with a client at TrackTik to recreate and refactor components in Vue.js, based on their existing architecture, to improve maintainability and functionality.

  - **Technologies used**: HTML, CSS, TypeScript, Vue, Vuex, Pinia, React, ReactQuery, NodeJS

### Lead Frontend Engineer

**Portaire** | London | Jul 2022 - Dec 2022

- Worked as a frontend engineer at Portaire with Next.js, a fast-growing interior architectural directory in the UK.
- Designed and implemented a custom design tool integration that streamlined collaboration between designers and developers, resulting in a more efficient workflow and improved productivity at Portaire.
- Crafted interactive design tools and real-time collaboration features on Portaire's platform, elevating the user experience for design professionals and driving increased user engagement.

  - **Technologies used**: HTML, CSS, React Query, React.js, TypeScript, NodeJS, ExpressJS

### Frontend Developer

**Gjirafa inc.** | Prishtina | Jul 2021 - Jul 2022

- Developed and optimized an intuitive admin dashboard using Vue, Vuex, and BootstrapVue for a high-traffic journalism CMS project, empowering over 300 journalists with efficient content management tools.
- Assisted 3 senior engineers and team leads with product releases and code reviews.
- Worked in an Agile, collaborative environment to receive design requirements, peer program, and test applications.

  - **Technologies used**: HTML, CSS, VueJS ,Nuxt, Vuexy, Vue Bootstrap, Javascript, TypeScript, Graphql, Apollo

### Frontend Developer

**Spim** | Switzerland | Dec 2020 - Jun 2021

- Spim SPA, Stockmanagement project that I built from the beginning using React/Redux and Axios for RestAPI requests.
- Created UI building blocks that can be used to build intelligent, gorgeous, enterprise-level software experiences.

  - **Technologies used**: HTML, CSS, Vue, Vuex, TypeScript, TailwindCSS
